DESCRIPTION

Fantastic ALALUNGA Navetta: Classic Italian Lines from the Iconic Spertini Naval Shipyard.

This motor yacht has been built to the highest standards, showcasing generous dimensions in both length and beam that provide notable internal and external living space. The ideal setting for relaxation and cruise enjoyment.

Outdoor Spaces:

The Alalunga boasts generous living areas and a variety of amenities, allowing guests to fully immerse themselves in the outdoor experience.

The teak decks underwent a complete refurbishment in 2016, including the stairs and swim platform and have been meticulously maintained since.

The expansive stern area on the main deck features an enjoyable space, complete with a large sofa and a lacquered table that comfortably accommodates 10 to 12 guests. Sunshade available for protection and privacy.

The flybridge offers a more secluded environment, featuring spacious sunbeds surrounding an elevated jacuzzi—an ideal setting for relaxation while taking in breathtaking views.

Additionally, a table with comfortable seating provides the perfect spot for refreshments.

Indoor Spaces:

Upon entering the yacht through the smoked glass doors, one is welcomed into an elegant main saloon, distinguished by fine woodwork, two sets of sofas accompanied by coffee tables, and comfortable armchairs.

The space also features a flat-screen television and a bar cabinet with stools, complete with its own wine cellar to ensure proper storage for fine wines.

Moving forward from the saloon, a refined and private dining area presents the perfect setting for an intimate dining experience.

Accommodating up to 12 guests, the yacht features a well designed layout of the sleeping area.

Below deck, guests are welcomed by a luxurious master cabin, along with three double cabins, each with en-suite bathrooms. The furnishings consist of warm walnut wood elements complemented by newly installed white carpeting for an understated elegant ambient.

The white ceilings, combined with the numerous portholes and LED lighting, create a light and bright space.

Entertainment and Comfort:

Amenities include a deck jacuzzi and air conditioning/heating to ensure optimal comfort while cruising.

The yacht is equipped with nine refrigerators, providing ample storage capacity for a diverse selection of provisions and drinks to satisfy all preferences.

Range and Performance:

Constructed with an aluminum hull, this classic Alalunga is designed for stability and efficiency, featuring a displacement hull, bulbous bow, and Vosper stabilizers. The advanced stabilization system minimizes roll and enhances comfort while underway.

Powered by twin Caterpillar engines, she cruises comfortably at 12 knots and boasts a range of up to 1,500 nautical miles, supported by her 15,600-liter fuel capacity.
