Negotiable price. Commissions excluded.	

DESCRIPTION

Built by the legendary Cantiere Navale Arno, this Leopard 27 Open combines a sporty, modern, and elegant aesthetic, thanks to her sleek lines and sophisticated metallic silver Awlgrip paint.

The outdoor area is generous, featuring luxurious sun pads that provide ample space for socialization and relaxation. The open deck layout creates a harmonious living area, allowing guests to fully enjoy their freedom of movement and the opportunity to gather and interact comfortably.

Equipped with MTU engines and Arneson transmissions, this high-performance yacht reaches speeds of up to 35 knots, allowing for efficient and swift cruising between destinations.

This beautiful Leopard has had a single owner and has been used solely for private purposes.

Upon boarding the vessel, the main deck will welcome you into a spacious area furnished with two large sunbeds, perfect for outdoor relaxation.

Guests are then guided inside to a generous salon, which serves as a natural extension of the outdoor space. This ambient is characterized by its silver tones and natural teak parquet flooring.

The expansive panoramic windows allow an abundance of natural light to illuminate the space. This elegant and modern setting is tastefully appointed with comfortable seating arrangements that feature large sofas, creating an inviting atmosphere.

On the starboard side, a sophisticated lounge area is highlighted by a C-shaped sofa paired with two height-adjustable coffee tables.

On the opposite side, a large rectangular table surrounded by another C-shaped sofa accommodates up to six guests, creating the ideal place for leisurely meals.

A retractable Panasonic 50-inch plasma TV and a Bose sound system provide an immersive entertainment experience.

A beautifully designed central island bar serves as the heart of this space, equipped with fridges, bottle and glass storage, a coffee machine, and all necessary utilities to serve meals or cocktails.

Moving forward, the wheelhouse is comprehensively equipped with all necessary navigation instruments and operating systems.

It features controls, indicators, and communication systems, all housed within a comfortable and practical environment. Three ergonomic helm seats in leather provide comfort for those who wish to enjoy the cruising operations.

From the helm station, a staircase leads to the accommodations.

The night area is defined by the dark, satin-finished tones of Okoume wood.

Guests are welcomed by three very private cabins, modern and elegant, showcasing a contrast between light cream-colored carpeting and dark Okoume furniture.

The impressive full beam master cabin, akin to a Superyacht suite, is incredibly spacious and refined, featuring a comfortable double bed and a sumptuous en-suite bathroom.

This luxurious retreat is complemented by a vanity area, a cozy sofa that seats three, and a generously sized walk-in closet for optimal storage.

Numerous storage cabinets are available above the portholes.

A 42-inch plasma TV mounted on the wall opposite the bed provides an immersive cinematic experience in the comfort of this beautiful cabin.

The lower deck also boasts a luxurious VIP double cabin complete with an en-suite bathroom, a twin cabin featuring side-by-side beds, and a day head.

A dedicated crew area consists of two cabins and a head, allowing a crew of three to operate with discretion and efficiency. The laundry facilities include one washing machine and one dryer.

The galley is thoughtfully designed, offering a well-equipped and functional space with numerous storage areas and all necessary amenities, including hot plates, an oven, a fridge, a microwave, and a dishwasher.

Among the amenities is the air conditioning system, with particular attention given to the owner's cabin, which is equipped with four a/c outlets for optimal temperature control.

The yacht boasts a swim platform and a generously sized garage designed to house the tender, in addition to multiple exterior storage areas for equipment.

ENGINE ROOM

Engines 2x MTU 16V2000M91 2000 hp each ; S/n. 536 102 792 & 536 102 4; Engines year: 2002
